

**Lisa Gelobter:**Headline:

Celebrating Black History Month

## Post Message:

Short Version:

Reliant recognizes Lisa Gelobter's involvement in the creation of Shockwave, the technology that helped develop the web animation used in GIFs. Learn more about her contributions to science and society here: #BlackHistoryMonth #BlackInventors

Long Version:

Reliant recognizes Lisa Gelobter for her involvement in the creation of Shockwave, the technology that helped in the development of web animation and gave us the fun GIFs we love to use today. Learn more about her contributions to science and society here: #BlackHistoryMonth #BlackInventors

Slogan:

Software engineer involved in the creation of shockwave

**Alice H. Parker:**Headline:

Celebrating Black History Month

## Post Message:

Short Version

Reliant recognizes Alice H. Parker's revolutionary idea to use natural gas to power a furnace. Her patented, energy-efficient invention paved the way to the central heating system we all enjoy in our homes today. Learn more about her here:

[#BlackHistoryMonth #BlackInventors](#)

Long Version

Staying warm this winter? Reliant is proud to highlight Alice H. Parker's revolutionary idea to use natural gas to power a furnace. In 1919, prior to the Civil Right Movement, her filing a patent was an achievement all on its own. Years before the Women's Liberation Movement, her invention paved the way to the central heating we all enjoy in our homes today. Learn more about her here: [#BlackHistoryMonth #BlackInventors](#)

Slogan:

Inventor famous for creating a patented central heating system using natural gas
